Bag this!!*
I
That's you, you bug bear!
I'll see you once your extraction is over.
Don't you dare think to run invidiously.
I'm getting my bag back.
If you had touched a single thing in there, I'll kill everyoooone...
Sounds like the anesthesia has set in. I'll start the extraction.

You both did well. Good job.
It'll take a while before your anesthesia wears off
Okay, since you did well I'll give you a rabbit toothbrush
Wow, I didn't feel a thing.
Have you had nerve surgery before? Compared to that, this is nothing
I already had my wisdom tooth since I was in grade school, so it didn't hurt at all
The extraction is nothing
I think you're struggling a bit, so I'll come to get the bag later... I need to get home quickly...
I'll let you go this time I just have to get home quickly today..
